Re: Request for Information Regarding Knolls Atomic Power Laboratory (KAPL) -
Knolls Site, Niskayuna, New York and the Separations Process Research Unit
(SPRU)

Dear Ms. Roy:

We received, and are working on another FOIA request (EPA-R2-2014-001353) from
Mr. Randy Seybold of WilmerHale located in Washington, DC.

Enclosed are copies of the information that was recently sent to Mr. Seybold on
December 20, 2013. Your office requested that our Radiation and Indoor Air Branch
send you a copy of the documents that we forwarded to WilmerHale.

We are also enclosing a separate batch of documents that we would like DOE to review.
The separate group of documents contain 90 pages, and are indicated by a cover sheet.
We did not send these documents to the FOIA requester. We want to consult with DOE,
and give DOE an opportunity to review this information, since the records contain
information of interest to DOE. After these documents (90 pages) have been reviewed by
DOE, please contact Mr. David Abrines of my staff to let us know what is the position
with DOE on whether the information can be released to the FOIA requester, and/or
whether DOE decides that the information cannot be released. If DOE decides that
information cannot be released, please provide us with the reason(s), and FOIA
Exemption(s) cited. We would then review what information you have given us, and
consult with you. You can forward the information to Mr. Abrines at the above address,
and include RCRA Records Center File Room, Room 1538. Mr. Abrines email is
Abrines.david@epa.gov.

If you have any questions regarding the information enclosed, please contact Mr. Abrines at (212) 637-3043.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Adolph S. Everett".

Adolph S. Everett, P.E.
